DETAILED ACTION

Allowable Subject Matter

1. Claims 1-17 and 19-24 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-17 and 19-24 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. **In claim 1**, "wherein light received by said sensor is used to measure movement of said optical navigation device relative to said surface; and a light-sensitive device coupled to said light source, said light-sensitive device disposed to receive light from said light source to regulate light emitted from said light source according to a level of light received at said light-sensitive device". **In claim 10**, "wherein light received at said sensor is used to measure movement of an optical navigation device relative to said surface; receiving light at a light-sensitive device, wherein light received by said light-sensitive device is also emitted by said light source; and regulating said light source according to a level of light received at said light-sensitive device". **In claim 19**, "wherein said light-regulating device comprises: a light-sensitive device to generate an output having a magnitude that corresponds to a level of light received by said light-sensitive device from said light source; and an electronic circuit coupled to said light-sensitive device, said electronic circuit comparing said output to a threshold and generating an output signal that indicates whether or not said threshold is met". The closest prior art Rotzoll (2003/0103037 A1) teaches an optical pointing device comprising a photosensitive element for generating a pixel output signal in response to radiation reflected from an illuminated portion of a surface, Son et al. (2002/0080117 A1) teach an optical mouse which can move a cursor on a

display screen of a computer system by varying arrangement of optical parts and structures using regularly reflected light in light emitted from a light source, however, singularly or in combination with other prior art, fail to anticipate or render the above underlined limitations obvious.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
